Definitions

Amount Awarded
The total dollar amount of ARRA funds that an agency/institution is expecting to receive over the life of the grant/program.

Amount Received or Invoiced
The total cumulative dollar amount of ARRA funds received through draw-down, reimbursement or invoice.

Amount Expended
The total cumulative dollar amount of ARRA funds that the agency/institution has spent for the grant/program at the time of this report.

Quarterly Jobs Created/Retained
Quarterly Jobs Created/Retained are calculated by dividing the total number of hours worked and funded by the Recovery Act during the reporting quarter by the total number of hours in a full-time work schedule during the quarter. This yields the total number of full-time equivalent jobs (FTE) funded by the Recovery Act during the reporting quarter, but does not reflect jobs created/retained in previous quarters (or the lack thereof). Due to numerous changes in federal guidance on reporting jobs since the Recovery Act was passed the State of Alabama cannot accurately calculate the total number of jobs created/retained by Recovery Act funding over the lifetime of the Act.

Performance Metrics

The State Recovery Office reports performance measures established by the state agencies that receive Recovery dollars in order to provide a more comprehensive view of results-based information. Accountability and transparency remain trademarks for our state with respect to the Recovery Act as well as all other public reporting. Providing information to the public that goes above and beyond the data submitted to the Federal agencies each quarter is a goal for the State Recovery Office. Along with the performance measures reported, you may also find information about jobs created/retained for each grant as well as a comparison of ARRA to non-ARRA funding for each program reported.

Alabama's performance measures fall into seven categories closely related to the purposes of the Recovery Act: Public Safety, Energy, Transportation, Workforce, Health and Human Services, Housing, and Environment. The State Recovery Office will regularly update this information and continue to provide additional measures as they become available from the agencies and institutions.

Amount Received or Invoiced

The total cumulative dollar amount of ARRA funds received through draw-down, reimbursement or invoice.

Amount Expended

Quarterly Jobs Created/Retained

Quarterly Jobs Created/Retained are calculated by dividing the total number of hours worked and funded by the Recovery Act during the reporting quarter by the total number of hours in a full-time work schedule during the quarter. This yields the total number of full-time equivalent jobs (FTE) funded by the Recovery Act during the reporting quarter, but does not reflect jobs created/retained in previous quarters (or the lack thereof). Due to numerous changes in federal guidance on reporting jobs since the Recovery Act was passed the State of Alabama cannot accurately calculate the total number of jobs created/retained by Recovery Act funding over the lifetime of the Act.
