Alabama ARRA Funding Notes

Notes

Per revised federal guidance, jobs created/retained are quarterly figures while amounts awarded, received and expended are cumulative for the life of the Recovery Act grant/program. Amounts awarded, received/invoiced, and expended will be updated monthly to reflect cumulative totals through the last day of the preceding month.

Jobs created/retained will be updated:

January 2010: October-December 2009 quarterly data

April 2010: January-March 2010 quarterly data

July 2010: April-June 2010 quarterly data

October 2010: July-September 2010 quarterly data

January 2011: October-December 2010 quarterly data

April 2011: January-March 2011 quarterly data

July 2011: April-June 2011 quarterly data

October 2011: July-September 2011 quarterly data

Amount Expended exceeds Amount Received on many grants because federal funding is received on a reimbursement basis.

Definitions

Amount Awarded

The total dollar amount of ARRA funds that an agency/institution is expecting to receive over the life of the grant/program.

Amount Received or Invoiced

The total cumulative dollar amount of ARRA funds received through draw-down, reimbursement or invoice.

Amount Expended

The total cumulative dollar amount of ARRA funds that the agency/institution has spent for the grant/program at the time of this report.

Quarterly Jobs Created/Retained

Quarterly Jobs Created/Retained are calculated by dividing the total number of hours worked and funded by the Recovery Act during the reporting quarter by the total number of hours in a full-time work schedule during the quarter. This yields the total number of full-time equivalent jobs (FTE) funded by the Recovery Act during the reporting quarter, but does not reflect jobs created/retained in previous quarters (or the lack thereof). Due to numerous changes in federal guidance on reporting jobs since the Recovery Act was passed the State of Alabama cannot accurately calculate the total number of jobs created/retained by Recovery Act funding over the lifetime of the Act.

Performance Metrics

The State Recovery Office reports performance measures established by the state agencies that receive Recovery dollars in order to provide a more comprehensive view of results-based information. Accountability and transparency remain trademarks for our state with respect to the Recovery Act as well as all other public reporting. Providing information to the public that goes above and beyond the data submitted to the Federal agencies each quarter is a goal for the State Recovery Office. Along with the performance measures reported, you may also find information about jobs created/retained for each grant as well as a comparison of ARRA to non-ARRA funding for each program reported.

Alabama's performance measures fall into seven categories closely related to the purposes of the Recovery Act: Public Safety, Energy, Transportation, Workforce, Health and Human Services, Housing, and Environment. The State Recovery Office will regularly update this information and continue to provide additional measures as they become available from the agencies and institutions.

*****Reporting of Education Jobs Bill funding follows the same stringent rules as those of the Recovery Act. For transparency purposes the funding allocated to the State of Alabama from the Education Jobs Bill are included in this report. For the purpose of segregating the dollar amounts associated with this program from other ARRA funding, the Education Jobs Bill amounts awarded, received, and expended will not be included in the overall totals of ARRA impact reported for the agency and/or state. Education Jobs Funds are received on a reimbursement basis. At the time of this report, the amounts expended during the previous month are pending approval by the Executive Budget Office. The amount expended is subject to change. The amounts expended reported by the State Department of Education and the Executive Budget Office may not always reconcile for these purposes.**

Appendix A- Definitions

Amount Awarded

The total dollar amount of ARRA funds that an agency/institution is expecting to receive over the life of the grant/program.

Amount Received or Invoiced

The total cumulative dollar amount of ARRA funds received through draw-down, reimbursement or invoice.

Amount Expended

The total cumulative dollar amount of ARRA funds that the agency/institution has spent for the grant/program at the time of this report.

Quarterly Jobs Created/Retained

Quarterly Jobs Created/Retained are calculated by dividing the total number of hours worked and funded by the Recovery Act during the reporting quarter by the total number of hours in a full-time work schedule during the quarter. This yields the total number of full-time equivalent jobs (FTE) funded by the Recovery Act during the reporting quarter, but does not reflect jobs created/retained in previous quarters (or the lack thereof). Due to numerous changes in federal guidance on reporting jobs since the Recovery Act was passed the State of Alabama cannot accurately calculate the total number of jobs created/retained by Recovery Act funding over the lifetime of the Act.

The financial information below is a reflection of the data submitted by State-funded agencies and institutions to the Alabama Department of Finance each month. Jobs data is collected quarterly.
