*State Fiscal Stabilization Funding and Jobs Created/Retained for 4-year universities is included in the Higher Education grand total and not the Agency grand total

**Postsecondary figures represent the total of all community colleges except Athens State because Athens State is a separate budgetary entity. Each community college's amount awarded, amount available and amount expended is also shown individually but these figures are not counted twice in totals.

***The Department of Corrections is awaiting guidance clarification on State Fiscal Stabilization Fund jobs created/retained prior to reporting these figures.

Note: The full awarded amount has been made available to the Governor's Office (prime recipient) but must be distributed to state agencies and institutions (sub-recipients) on a reimbursement basis; as a result, Amount Expended exceeds Amount Available for all entities.

The information below is a reflection of the data submitted by agencies and insitutions to the Alabama Department of Finance each month.
This report is cumulative for the life of the Recovery grant/program.

*The Alabama Department of Transportation reports the total number of hours worked on Highway Investment Projects, which is then converted to Full Time Equivalents by dividing the total number of hours worked by the number of hours in a full-time work calendar. The jobs number shown is a cumulative total over the life of the program and is updated quarterly per Federal Highway Administration guidance.

**Note: The Federal Committee on Transportation and Infrastructure also requires monthly ARRA reports from the Alabama Department of Transportation. This executive summary and the Committee on Transportation and Infrastructure's reports reflect the most recent data available while the federal reporting database at Recovery.gov collects information on a quarterly basis. Because of differences in the timing of these reports the figures reported will be different.
